

TCM Forklift Parts

TCM Forklift Part - In the international industry of material handling, lift trucks play an important part for transporting industrial goods. First innovated as industrial vehicles in the 1930s in America, forklifts gained popularity following World War II during the 1940s. Becoming an efficient and reliable means to material handling solutions, the need and practicality of these machinery spread internationally.

In the year 1949, started by Mr. N. Niwa, the first Toyo Carrier Manufacturing Company Limited, which was later named Toyo Umpanki Co, was recognized. Presently the company is simply referred to as TCM Corporation. Throughout the years, TCM lift trucks have become an international leader in lift truck manufacturing and have built a solid reputation with the business. TCM started building forklift manufacturing locations outside of Japan during the 1980s and is now engaged in lift truck manufacturer at three foreign factories in the United States, Europe and China.

TCM proudly makes various models of industrial lift trucks with over 50 years of accumulated technology and expertise, making their products used and recognized all around the globe. Characterized by strong initiatives and energetic staff, TCM continues to look toward the future and aspires to become a world-class leading business.
