

Spreader Bar for Forklifts

Spreader Bars for Forklift - Proudly operating ever since nineteen seventy four, ELME Spreader AB is the largest independent spreader company in the world. They have been a devoted maker of spreaders used for numerous applications like the handling of containers, swap bodies and trailers.

Engineering is done in house by utilizing all of the latest CAD systems and FEM tools. The ELME company currently employees over 125 staff members. Their spreaders are supplied to reach ship-to-shore cranes, stackers, straddle carriers, lift trucks, gantry and quayside all-around the globe.

The ELME product range offers spreaders utilized for different container and trailer handling operations. Some of their inventory include: Ship to Shore Spreaders, Spreaders for Rail mounted and Rubber Tired Gantry Cranes, Reach Stackers, Harbour Cranes, Lift Trucks, Straddle Carriers plus a huge array of additional parts.

ELME manufacturing and production is done in a highly automated purpose built factory. In the year 2008, they made more than 1150 spreaders by using high quality parts to guarantee reliability and top standards while offering reasonable prices. Major features of ELME consist of design simplicity, market feedback and inventive modular spreader concept.
